ADEL ABDULAZEEM

Software Engineer

SUMMARY

Experienced software engineer with a strong record of developing scalable web applications. Expert in API integration and optimizing CI/CD pipelines, delivering robust solutions that enhance performance across front-end and back-end systems.

WORK EXPERIENCE

Software Engineer at 100devs, Remote

March 2023 — Present

- Partnered with cross-functional development teams to design and deploy modern, responsive web applications, driving a 25% increase in user engagement.
- Spearheaded the development of multiple full-stack web applications, utilizing React, Node.js, MongoDB, and Express, improving code maintainability and performance by 30%.
- Integrated third-party APIs, boosting user engagement by 25% and reducing response time by 15%.
- Implemented Agile methodologies, including SCRUM, to streamline project management, resulting in a 20% reduction in delivery time and consistently meeting deadlines for feature releases with zero critical defects.

Recent Projects:

Comfort Chair Co | Full-stack E-commerce Website

- Developed a full-stack e-commerce platform with EJS, Node.js, and MongoDB, facilitating transactions for 1,000+ users and boosting sales by 30% in the first quarter.
- Implemented secure user authentication and optimized UI/UX, resulting in a 20% increase in transaction completion rates.

Kitty Haven | E-commerce Website

- Engineered a feature-rich online store using React to display over 50 kitten products with detailed images and pricing.
- improved customer engagement metrics, leading to a notable increase in average session duration by 25 minutes.
- Enhanced page load times by 15% through code optimization and responsive design techniques.

Full Stack Web Developer at Adel's Consulting

October 2022 — Present

- Created full-stack web applications for small and medium-sized businesses, incorporating modern tools such as React.js and PostgreSQL, resulting in a 40% improvement in client satisfaction.
- Led the integration of CI/CD pipelines using Jenkins, accelerating deployment cycles and reducing bugs by 15%
- Consulted clients on SEO best practices and social media strategies, leading to a 50% increase in website traffic.
- Boosted website performance by implementing best practices for code refactoring and responsive design, leading to a 25% faster load time.
- Initiated a structured approach to project documentation and version control with GitHub, enabling a clear audit trail for projects; led to 100% compliance in documentation across all project phases.

Approval Officer at Allianz Partner NextCare Company

December 2021 — October 2022

- Managed health insurance contracts with an annual ceiling of up to $1 million, ensuring adherence to regulatory standards and efficient claims processing.
